# Digital Badging for eLearning Courses

ASTM International has partnered with Credly® so that now when you complete an online course, you can proudly display your achievement for colleagues, employers, and prospective employers to see!

## What is Digital Badging?

A verified, portable, data rich digital representation that documents an individual's demonstrated skills, competencies, and certifications.

**01**

## Where do I put my new Digital Badge?

- Feature on your LinkedIn Profile
- Add to your resume
- List on your website

**02**

## When do I earn my Digital Badge?

When your course is completed, ASTM International will issue your digital badge with detailed instructions on how to access and display your new badge.

**03**

## What will my Digital Badge look like?

Each badge is designed to communicate the education acquired from a course so each badge is different, depending on your attendance.

**04**

- Easily manage your learning achievement
- Display credible and verifiable educational milestones

- Leverage your new skills and training to connect with active job opportunities
- Access promotional offers and learning pathways exclusive to badge earners
